BASEL GERMAN MISSION TILEWORKS.

TILES FOR THE SEASON 1880-81.

MANGALORE GROOVED TILES.—Since the first introduction of these Tiles in 1:65, they have, on account of their Intrinsic worth, met with general approval, not only in the Bombay Presidency, and along the Coast, but also in the mountainous districts of Mysore, Coorg and Wynaad. All our Tiles are made from the best clay, scientifically prepared, and being thoroughly compressed and well burnt they exclude the damp effectually. For elegance, cheapness, and durability they stand unsurpassed. As numerous Indations have appeared in the market, it is necessary to inquire for the "MISSION" Tiles, as they all bear our Trade Mark,

"BASEL MISSION TILE WORKS 1865."

144 Tiles cover 100 square feet.

SKY-LIGHTS AND VENTILATORS.—These contrivances are of very great use, where light or air is required. They can be put in at any place desired, or removed to any other, without special provision in the structure of the roof.

FLOORING TILES.—These are made of excellent material, and have fluted grooves at the back and at the sides so that being carefully laid into mortar, they form a thoroughly compact mass, and do not get loose. A floor thus constructed is secure against white ants and damp. 840 Tiles cover 100 square feet.

HOLLOW BRICKS.—These are much less in weight than the ordinary Bricks, and being light and handy, they have for many purposes immense advantage over heavier building materials. Size 9" by 4½" by 3".

TUBES.—These are very useful for Drains, Water-courses, Closets, &c., and are made of different sizes from 3 to 7½ inches in diameter, length 2½ feet.

SAMPLES.—A sample box of Tiles and Bricks will on application be sent free of charge.

Every facility will be afforded to OUT-STATIONS, in respect of freight, &c., by arranging for direct shipment from the Factory. For illustrated lists and further information apply to

WARDEN & Co.,
Sole Agents for the Bombay Presidency,

NEW ADVERTISEMENTS.

THE TURKISH CRISIS.

REDUCED PRICE.

THROUGH ASIATIC TURKEY.

NARRATIVE OF A JOURNEY
BY
GRATTAN GEARY.

With a Map and Illustrations.
IN TWO VOLUMES.

A few Copies left to be disposed of at reduced price, Rs. 6-8; Postage, Annas 8.

(*From the Russian "Golos."*)

The Author keeps strictly within the domain of fact; and, with great fairness, tells all he saw during his long journey over Asiatic Turkey. He does not exaggerate that which reflects discredit upon the Turks, nor does he withhold anything testifying in their favour.

* * * * *

Mr. Geary directs the attention of his readers to the fact that Russia, having possessed herself of Kars, now actually occupies in Asiatic Turkey the strongest strategic position. At any time she chooses she can annihilate Turkish power in Mesopotamia and Syria.

* * * * *

Mr. Geary states that the tribes inhabiting those parts are extremely dissatisfied with the Turkish rule.

DR. BRIGHT'S PHOSPHODYNE.

The New Curative Agent and only Reliable Remedy for Indigestion, Nervous and Liver Complaints, Fevers, and all Functional Derangements.

DR. BRIGHT'S PHOSPHODYNE is acknowledged by the first medical men in Europe as the most efficacious medicine hitherto discovered for Weak and Shattered Constitutions, Nervous Debility, Aversion or Incapacity for Study, Trembling of the Limbs, Indigestion, Female Complaints, Flatulence, Liver Complaints, Shortness of Breath, Drowsiness, Pains in the Head, Pimples, Impoverished Blood, and all diseases caused by a long residence in tropical climates, for which iron, mercury, iodide of potass, &c., are given in various forms, often to the destruction of the patient's health.

CAUTION TO THE PUBLIC IN INDIA.

Beware of a WORTHLESS IMITATION advertised in a few Indian Newspapers. Dr. Bright's (the only Genuine) Phosphodyne is the safest and most reliable preparation of Phosphorus and the only medicine of that name recommended by the Medical Faculty.

Fraudulent Imitations are in no way recognized by the Medical Profession, and are either Useless or Positively Dangerous.

DR. BRIGHT'S PHOSPHODYNE.—Until the introduction of DR. BRIGHT'S PHOSPHODYNE in 1869. Phosphorus was but seldom prescribed as a Medicine, owing to the difficulty in so preparing it that its action could be kept under perfect control. It had been used in Almond and Olive Oils, in Sulphuric Ether, in rectified Alcohol, in Chloroform, and in several ad vertised medicines; but in all the hitherto known methods of its preparation, certain irregular results have been experienced. But in the form of DR. BRIGHT'S PHOSPHODYNE, its invaluable action on the human system is realized without any of those drawbacks which other modes of preparation invariably produce.

DR. BRIGHT'S PHOSPHODYNE

Is Sold in Cases only by all Chemists and Storekeepers throughout the Globe.

DR. BRIGHT'S PHOSPHODYNE.—Full Directions for use in the English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindostani, Madrassee, Bengalee, Chinese, and Japanese Languages accompany each case.

DR. BRIGHT'S PHOSPHODYNE.—*Purchasers of this medicine should be careful to observe that the words "Dr. Bright's Phosphodyne" are blown in the bottle, and that the directions for use are printed in all the languages as above, without which none can possibly be genuine Phosphodyne. Every Case bears the Trade Mark and Signature of Patentee.*

COMMERCIAL INTELLIGENCE

FRIDAY EVENING, AUGUST 6.

As usual at this period of the monsoon the weather and crop prospects in this Presidency attract more general attention in commercial circles in Bombay than the actual position of the various markets for Eastern produce in which Bombay is interested. We have now reached the most critical time, and where rain is still wanted it is feared that the crops must be a failure; this is notably the case in Khandeish, where up to the present time the rainfall has been very deficient. In some parts of the Berars, however, where it was feared the crops had received permanent injury from drought, rain has fallen, and prospects are more cheering. From other quarters the accounts coming to hand are now favorable, and the Cotton and Grain crops are generally said to be doing well, not only in this Presidency, but in Madras, where things were beginning to look serious, rain has fallen A very hopeful feeling consequently prevails regarding the future which imparts considerable strength to our Import markets, but in Exports, transactions are limited by dull advices from home, and the small supplies of produce available here Money continues easy, and Government Paper is firm, while the Share market is fairly steady. Sterling Exchange shows a further slight advance this week. Freight are very dull, with a supply of available steam tonnage considerably in excess of present requirements.

MONEY.—The last published statement of the Bank of Bombay for the week ending on the 31st ultimo showed a further increase in the Cash Balance of about 12 lakhs due to a considerable increase in Public Deposits as the trade demand showed an increase of 11 lakhs. No alteration has been made in the Bank's rates of discount this week, the nominal minimum still being 5 per cent on demand loans secured by Government Paper, but outside rates are quite one per cent. lower with every appearance of declining still further, and the Bank is making advances by way of short loans at 3 per cent. On the other hand, it must be remembered that we are drawing towards the close of our monsoon, that our crop prospects are on the whole favorable, and that there is every indication of considerable activity in trade before the end of the year. Government requirements must, moreover, form an important item for some time to come, and this may possibly lead to an increase in the value of money, although we have fair supplies of Silver to receive, in the meanwhile.

EXCHANGE.—The transactions in Sterling during the week have only been moderate in extent, but rates have tended steadily upwards without any material fluctuations. Business closed for last mail at our Friday's quotations, and opened on Monday at 1-32d. per rupee advance on the basis of 1s. 8 9-32d. for demand Bank, and 1s. 8 17-32d. for 3 months' sight Credit Bills. On Tuesday there was a strong feeling at a further advance of 1-32d. all round, and on Wednesday rates were maintained, but the market was irregular. On Thursday it opened with rather an easier feeling, as Council Bills on the previous day were allotted on slightly easier terms than were generally looked for: telegrams from Calcutta reporting a strong market, however, quite dispelled all feeling of weakness, and closed at fully Wednesday's rates. To-day the market opened steadily, but on the receipt of weaker advices from Calcutta, rates here gave way 1-32 to 1-16th per rupees, and close as follows viz:—Bank Bills on demand, 1s. 8 9-32d. Telegraphic 1s. 8¼d., 3 months' sight 1s. 8 13-43d., 4 months' sight 1s. 8 15-32d., credits 3 months' sight 1s. 8 17-32d., 6 months' sight 1s. 8 23-32d.; Documents, 3 months' sight 1s. 8 9-16d., 6 months' sight 1s. 8¾d.; Francs, 3 months' sight 2. 16¾, per rupee.

Throughout the week the Banks have been willing sellers for forward delivery at fully current rates, and a fair amount of business has been put through for September-October, but as the market hardened, the demand for forward remittance fell off, but at the close buyers are showing more disposition to operate.

BAR SILVER in London has advanced during the week from 52 13-16d. to 52¾d. per oz., and at the latter rate the market is reported to close firm. Shipments are advised from Southampton to the extent of £30,000 to this port, and £30 000 to Calcutta. At the weekly biddings for Council Bills on India in London on Wednesday the full amount of 30 lakhs was allotted to Calcutta at 1s. 8 5-16d. per rupee. There is still no reduction in the amount to be offered next week, but the feeling gains ground that the drawings cannot be continued on their present scale much longer, and this is affecting the rates of Sterling more than any trade influences, which just at present are unimportant. That the Afghan war will now be prolonged far beyond the autumn is a certainty, and that the Home Government must bear part of the expense connected with it is no less certain; in what form this assistance will be rendered is still doubtful, but the simplest and most effectual would undoubtedly be a temporary suspension of the Council's drawings altogether.

On Calcutta, business has been done during the week at 1-16d. to ⅛d. premium for demand, the latter being the closing quotation, while that for 60 days' sight Bills is still ¼ cent. discount.

On China, the rate for 60 days' sight Mercantile drafts is Rs. 221 per 100 dollars. From Hongkong, the latest telegraphic quotation for 4 months' sight Bank Bills on London is 3s. 10¾d. per dollar, and from Shanghai 5s. 4¼d. per tael.

GOVERNMENT PAPER.—The market for Government Securities has not quite recovered from the temporary depression which followed the announcement of the reverses to our troops in Afghanistan, and during the past few days there has been considerable activity, and closes with a strong demand from buyers at about our quotations which show 1-16th to 1-8th advance on those of last mail day, and are as follows, viz.:—Fours 1s. 96¾. Fours avered-a-half Rs. 104 7-16. Port Trust Bonds Rs. 94¼, Municipal 5 per cent. Loan Rs. 103¾.

SHARES.—There has been very little animation in the Share market during the past week, but rates are on the whole fairly maintained, and in some few instances show a slight improvement on those of last week. In Bank shares the reported changes are a decline of Rs. 5 per share in Bombays, Re 1 in Nationals, and Rs 5 in Orientals. In Press Companies, Apollos have advanced Rs. 25, Forts Rs 100, Mofussils Rs. 15, and Scinde and Punjaub Rs. 250 per share. Among Spinning and Weaving Companies the changes comprise an advance of Rs. 9 per share in Anglo-Indians, Rs. 50 in Alliance, Rs. 10 in Bombay United, and Rs 10 in Dhurumseys, and a decline of Rs. 5 in Empress, Manockjee Petits, Mazagons, and New Great Eastern; Rs. 10 in Hindustan and Jewraz Balloo; Rs. 15 in Bombay United, and Rs. 20 in Khatao Manoonjee.

PIECE-GOODS.—We have again to report upon a week of very moderate transactions in ready Goods, the total sales in the bazaar having amounted to only an estimated quantity of 1,000 packages, while from first hands the business doing has been insignificant. The tendency amongst dealers to anticipate their future requirements has, however, been well maintained, and a good demand prevails for September-October shipments. Crop prospects are generally favourable, and although the shipments this year to Bombay, and India generally, have been very heavy, there is no doubt that the consumption of Manchester goods after two exceptionally favourable harvests is as yet an unknown quantity, and if present crop prospects are borne out, we may yet see an amount of activity prevailing in this market before the end of the year far exceeding the most active period last season.

GREY GOODS.—There is a moderate demand for Shirtings at about previous rates, and Printers and Madapollams also move off slowly at quotations. T. Cloths are dull of sale. Jacconets and Mulls are quiet but steady. Dhottis continue in good demand. In *Bleached Goods* there is still next to nothing doing. Dyed, Printed and Turkey Red Goods sell well at previous rates. Local-made Goods continue to meet a ready sale.

TWIST.—There is no change to report in this market. There is still a good enquiry for parcels to arrive, but on the spot there is a little doing in imported Yarns. For Local Spinnings there is still a good enquiry for the China markets.

METALS.—*Copper*—The better feeling reported in this market last week has been quite lost, as owing to rather heavy arrivals the price of Braziers has given way 4 as. per cwt. and Rs. 44-12 per cwt. is now the bazaar rate and no sales have been reported to arrive. *Yellow Metal* keeps quiet but steady, at last quotations. Iron keeps steady, with a moderate amount of buying going on to arrive.

COALS.—The only transaction to arrive reported during the week has been the sale of a cargo of Brymbo Welsh Hartley August-September sailing via Cape at Rs. 18 per ton. The stock had in Bombay owing to large arrivals of late is heavy, amounting to about 65,000 tons, which is considerably in excess of requirements: the weekly consumption being about 9,000 tons.

KEROSINE OIL.—The nominal quotation to arrive is Rs. 3-8 per case, but there are no sellers, and the only business passing is quite of a retail character at Rs. 3-13 per case on the spot. The estimated stock is large, say 270,000 cases, and this of itself is sufficient to prevent any material advance in prices besides the markets in Calcutta, Madras, and China being in the meantime overstocked.

COTTON.—The Liverpool advices have been somewhat firmer since the holidays on Saturday and Monday last, and ours keeps firm owing to the demand for local consumption, as there is still nothing doing for export. Our crop prospects are on the whole fairly favourable, with the exception of the Oomrawutee districts, where more rain is badly wanted, and where, in fact, unless it falls during the next few days it will be too late. From Broach the accounts are now good, and with the continuance of seasonable weather another bumper crop may be looked for. In the Dholleral districts also everything is going on propitiously for the crops. In Cutch rain is still badly wanted, but this crop is an insignificant and undesirable one at the best of times, and it would not perhaps be altogether an evil if we never had any more of the Cotton in Bombay again. In Dharwar and Compta districts prospects for showing are now favourable.

The *Receipts* to date show the following comparisons:—

	1880.	1879.	1878.
For the week..	6,825	3,844	2,020
Total since 1st Sept.	1,150 269	830,177	954,002
,, 1 t Jany.	1,032,269	758,252	855,583

The *Clearances for Sea* for the week amount to 17,184 bales, making a total of 840,246 bales since 1st January, against 572,668 for the corresponding period last year.

The following are to-day's quotations for Fullpressed Cotton, with the equivalents in Sterling, Cost, and Freight to Liverpool, via Canal, without Commission:—

	Per Candy.	Per lb. C. & F.
Good Omras	Rs. 367	= 5 5/16d.

F.G.F. Gimnel Dharwar	,, 208	= 5 11/32d.
G. F. Comptа	,, 196	= 5 1/16d.

SEEDS.—*Linseed*.—There has not been much doing during the week in Seeds of any description, but the price of Linseed has been steady at Rs. 6-10 to Rs. 6-12 per cwt. *Rapeseed* is neglected, and to-day's rate of Rs. 6 per cwt. must be considered nominal.

WHEAT continues in good demand, as an improved enquiry in the home markets has been assisted by cheap tonnage on this side; the price for White is consequently somewhat dearer and Rs. 32 per candy is the quotation. Red is unchanged at Rs. 37 to Rs. 38 per candy.

GRAEFENBERG MARSHALL'S UTERINE

CATHOLICON,

Known and used for over Thirty Years by the most cultivated and refined among women. Physicians of great ability are now using this medicine in their practice for FEMALE WEAKNESS, and all complaints to which women are subject. It cures NERVOUSNESS, GENERAL DEBILITY, encourages the APPETITE, and assists nature in restoring the system to a perfectly healthy condition. Sold by all Dealers in Medicines,

GRAEFENBERG COMPANY, NEW YORK,
Agents in Bombay:
B. S. MADON & Co.
NOWROJEE BOMANJEE & Co.

MESSRS. C. MARCKS and Co., of Bombay and Poona, have the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has APPOINTED them AGENTS for the sale of his CELEBRATED PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c.

Mr. Menist makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

Mr. Menist's Non-pressure Eye-glasses have a pring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure, or leaving any mark when removed.

His 12 lens "Duchesse" are all Achromatic, and as powerful as Field Glasses.

His Field, Marine and Opera Glasses may be used for hours without causing the eyes to ache.

Mr. Menist has left instruments with Messrs. C. Marcks and Co. which enable them to test each eye separately, for it frequently happens that they differ more or less in power.

Messrs. C. MARCKS & Co., for the convenience of clients who may not wish to purchase Mr. Menist's glasses, have also in stock some of their own manufacture, at lower prices, in Gold, Silver, and Steel frames; and though the quality of the pebbles is admittedly not equal to those of Mr. Menist, yet it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

SATURDAY, AUGUST 7, 1880.

THE impolicy of withholding information in the possession of Government, even when the substance and effect of it are known, is becoming more evident every day. The wildest rumours get afloat and obtain credence. For the last two days it has been believed that Kandahar is invested, and that the citadel is being shelled. To say that no official confirmation of this rumour is obtainable is, under present circumstances, to say nothing; if the statement were true, and the Government knew of its truth, it would still say nothing. But there is nothing to show that it is true, and we do not believe it. That Ayub's army suffered severely in the battle which was so disastrous to General Burrows's Brigade is certain, and though the victory no doubt has brought him a multitude of followers, it has not enabled him to fill the gaps in the ranks of his trained regiments. A siege conducted by a tumultuous crowd of half armed tribesmen would not be very likely to succeed, and that Ayub would have considerable difficulty in effectually investing the city and bringing his guns to bear so as to bombard the citadel which is strongly garrisoned and provided with a formidable siege train. The risk of losing his guns through a successful sortie of the garrison would be considerable if he entered upon the siege before his regular forces were reorganized after the losses incurred in the battle. We may well wait, therefore, for some confirmation of this rumour before accepting it as true, or even as probable. On the other hand, it is no doubt true that the country between Kandahar and Ghaman, and even on to the Pishin Valley and Sibi, has risen. There have been skirmishes at Chaman, in the Pishin Valley, and near Sibi, convoys being attacked and posts menaced. The Press Commissioner sets these outrages down to the credit of thieves; but mere thieves do not attack soldiers on the march and menace military posts; they select less formidable prey. It is evident that we have the whole of Southern Afghanistan on our hands, and there is no use in disguising the fact. After all, the rising of the tribes will not make much practical difference; the large force which will soon be under the orders of General Phayre, supported by the strong division about to march from Kabul under General Roberts, will be able to brush aside any number of insurgent villagers who may get in the way, once the operations for the relief of Kandahar have fairly begun. Neither Ayub nor his new partisans can withstand for a month the columns which will soon be directed against him. It is only to be hoped that the success of Kushk-i-Nakrud will tempt Ayub to stay in the neighbourhood of Kandahar and fight another battle with British troops. When will he be on the morrow of that battle?

OPINION must be somewhat divided as to the results, immediate or ultimate, of the action the Upper House have taken in throwing out the Irish Compensation Bill by a large majority, which included no less than 56 Whig lords. The second reading of the Bill was carried in the House of Commons by a majority of 78, and the third reading by one of 66. Circumstances of course are conceivable in which House of Commons majorities reaching these figures would make it of very little importance what the House of Lords on first impulse did. But though we cannot agree with our contemporary in attaching much significance to the drop from 78 to 66, as we shall immediately explain, a reference to the division list, and an attempt to trace the exceedingly tortuous course of the debate, will show what a nice question the vote in the House of Lords has forced upon Government.

The first majority of 78 was gained by the help of 50 of the Home Rule party. On the other hand an equal number of the Liberal party were absent from the division; while twenty-one Liberals took the extreme step of voting against the Government. No Conservative voted with the Government. The division list on the second occasion has not reached us yet; but, as we shall show, there is every reason to suppose that none of the 245 Liberals who followed Mr. Gladstone and Mr Forster on the first occasion deserted him on the second. If the Irish Attorney General's amendment had been persisted in after its possible, though uncontemplated results had been pointed out by Mr. C. Russel, Government, we can believe, would have lost a few of their English or Scotch supporters without conciliating one of the Irish party who took mortal offence at that amendment. There has been abundance of proof that no amount of possible compromise or concession could have got for the Government a single Conservative vote. On the other hand, the Home Rule party discovered, in the course of the debate, what it may be surmised they knew pretty well before, that Government has no mind to serve the tenant at the expense of the landlord beyond the point of seeing to it that the tenant's interest in his farm shall be an item on the credit side of his account with his landlord; and as this is not only a desirable, but a feasible reform, it may safely be conjectured that 78 fell to 66 because a certain number of so-called Irish patriots did not wish to have anything to do with it. If the Government were in danger—as we should hope they were not—of counting on the Irish vote such a defection would have its use as a beacon. The Liberal defection is a much more serious matter; though for the reasons we have urged, we do not expect to hear that it had spread beyond its first strength in the House of Commons. It has now, however, been confirmed in the most significant way by the vote in the House of Lords. What are the causes of this defection; and what amount of divergence does it indicate between the 75 dissentients and the bulk of the party?

Turning again to the debate for light on points like these, we must admit that the reader's first feelings are likely to be those of complete bewilderment. It is extremely difficult to hold fast through the whole perusal to the natural presumption that the various speakers had been supplied with identical copies of the Bill. One is tempted to give way to an idea, which would for the moment clear up a good deal that is very mysterious, that the Geonis of Discord had had a finger in this pie; and that Mr. Forster, in introducing the measure, had been so far in possession of the gift of tongues as to be unintelligible in turn to all parties. But the following is what we take to

LATEST INTELLIGENCE

ATTACK BY PATHANS.

(FROM OUR SPECIAL CORRESPONDENT.)

SIBI, AUG. 6.

Dr. Duke's party, under the command of Lieut. Tobin, of the 23rd, has been attacked by Pathans. The enemy was repulsed, leaving ten men dead, Lieut. Tobin was wounded in a personal encounter, but killed his man. Another detachment have sent word that they have been surrounded. The country is evidently disturbed, and Sibi appears to me to be not quite in a satisfactory condition for defence, being greatly scattered.

RISING BETWEEN KANDAHAR AND CHAMAN.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, AUG. 6.

The whole country between Kandahar and Chaman has risen, and communication with Kandahar is difficult. A body of tribesmen attacked a convoy near Dinar Karez in Pishin on the 3rd, but were beaten off by a small party of the 10th Native Infantry. There has been skirmishing with the tribes near Chaman, some twenty of the enemy are said to have been killed and three men wounded on our side. Telegraphic communication with Killa Abdulla, though occasionally interrupted, is still open. In Pishin itself the wire has not been once cut.

ASSISTANCE BY THE KHAN OF KHELAT.

The Khan of Khelat is affording every assistance in the way of transport animals and supplies. The weather is unusually hot for the time of year, and rain is much needed. The Marri and Brahui tribes appear to be behaving well and the Bolan Pass is perfectly quiet.

THE RELIEVING FORCE FROM KABUL.

The following force is in readiness to leave Kabul for Kandahar:—The 1st Brigade—92nd Highlanders, 2nd Ghoorkhas, 23rd Pioneers, 24th Punjab Infantry. 2nd Brigade—72nd Highlanders, 5th Ghoorkhas, 2nd and 3rd Sikhs. 3rd Brigade—60th Rifles, 15th Sikhs, 4th Ghoorkhas, 25th Punjab Infantry. The three infantry brigades will be commanded by Major-General Ross. The cavalry brigade, under General Hugh Gough, consists of the 9th Lancers, the 3rd Bengal Cavalry, the 3rd Punjab Cavalry, and the Central India Horse. The Artillery, under Colonel C. A. Johnson, comprises screw guns, and two other mountain batteries, viz., 11-9 R. A. and No. 2 Mountain Battery.

The British troops will take tea, sugar, and rum for 30 days. The Commissariat carry 500 lbs of army food, 200 gallons of limejuice, and all available preserved vegetables. All men under orders will be rigidly inspected by medical officers.

ATTACK BY SAFIS.

On the 3rd, some Safis attacked a party of grass-cutters near General Gough's camp. The escort killed four Safis and took nine prisoners. The Afghan who wounded a Sikh cook in General Hills's camp at Indiki was captured and shot.

THE COMMUNICATIONS.

(FROM THE PRESS COMMISSIONER.)

SIMLA, AUG. 6.

QUETTA, Aug. 5.—Captain Wylie arrived at Killa Abdulla this morning. Yesterday he reported from Gulistan Karez that there is not at present any regular rising of the tribes in the neighbourhood of the Khojak Pass, and that the attacks on convoys have been committed by gangs of thieves. The news from Shorawak is more satisfactory. Supplies are still coming thence to Gulistan. The Chaman post has been made strong enough to resist any tribal attack. Colonel Lindsay has reached Killa Abdulla, and has gone to mark out a position on the crest of the Khojak, which is now occupied by a strong detachment.

The headquarters of the 2-11th Regiment arrived at Gulistan this morning.

Some Pathans attacked the Nassak post and also a convoy near Spintangi, but on both occasions they were driven off with loss.

DEPARTURE OF THE HIGHLANDERS FROM POONA.

(FROM OUR OWN CORRESPONDENT.)

POONA, AUG. 6.

The 78th Highlanders leave Poona on Monday morning.

THE POONA EXTORTION CASE.

(FROM A CORRESPONDENT.)

POONA, AUG. 6.

In the case of Mr. Adurjee Dorabjee, Government contractor, *versus* Mahomed Ali Borah, before the City Magistrate, which excited a great sensation here, the accused was convicted of attempting to extort money by threatening to publish a libel against Khan Bahadoor Eduljee Pestonjee, of Mhow, and was sentenced to pay a fine of five hundred rupees, or in default to suffer six months' rigorous imprisonment.

[REUTER'S TELEGRAMS.]

MR. GLADSTONE'S CONDITION.

LONDON, AUG. 5.

Mr. Gladstone continues to improve, although slowly.

LONDON, AUG. 6, 3 p. m.

Mr. Gladstone is progressing to convalescence, and he will go into the country next week. Probably he will appear in Parliament before the prorogation.

MR. FORSTER AND THE IRISH COMPENSATION BILL.

LONDON, AUG. 6.

In the House of Commons last night, the Chief Secretary for Ireland, in reply to a question, said that he deeply regretted the rejection of the Irish Compensation Bill by the House of Lords, and he trusted that a plentiful harvest would alleviate the position of the Irish farmers. He appealed to the Irish members to use their influence in maintaining order in Ireland.

DISTURBANCES ANTICIPATED IN IRELAND.

LONDON, AUG. 6.

The *Times* publishes a paragraph this morning stating that 1,000 men of the Royal Marines are ordered to Ireland, as disturbances are expected.

REPORTED ABANDONMENT OF THE NAVAL DEMONSTRATION.

It is stated that the intended naval demonstration in the Adriatic has been abandoned in consequence of the readiness of the Porte to settle the question of the Montenegrin frontier.

THE GREEK RESERVES CALLED OUT.

ATHENS, AUG. 5.

The reserves of the Greek Army have been called out.

STATE OF IRELAND.

LONDON, AUG. 6, 6-0 P.M.

In the House of Commons this evening, the Chief Secretary for Ireland, in reply to a question, said that disorders in Ireland were not apprehended, and that though troops would occupy districts where agrarian outrages took place, they would only replace drafts sent to India.

THE QUESTION OF THE GREEK FRONTIER.

The Under-Secretary for Foreign Affairs, in reply to a question, said that the Great Powers were considering what further steps should be taken on the question of the Greek frontier.

Arrival—Singapore.

WE published on Monday last a communication, which we accepted in good faith, from a person resident in Poona, who has occasionally supplied us with paragraph, chiefly with regard to doings in the local law courts. The communication in question turns out to have been made in bad faith, and had reference to a case in which the writer himself is intimately concerned. We had no reason previously to distrust items of intelligence supplied to us by the person in question. After the revelations in the case referred to, however, nothing that may come from that quarter will gain admission to our columns. An apology is due to Mr. Eduljee Pestonjee for the publication of the insinuations against his character, which appear to have been quite groundless, nothing having transpired in the course of the trial to warrant them.

WE publish in another column this morning a letter from Mr. Griffiths, Superintendent of the School of Art, inviting native gentlemen who are in possession of good examples of old Indian art work to lend them for the purposes of the Exhibition of Native Industrial Art, to be held at Simla.

IT is calculated that Goa will suffer a loss of seven per cent. on silver money when the change from the old to the new coinage comes into operation.

THE Government have chartered the B. I. S. N. Company's steamer Huzara for conveying the 78th Highlanders to Kurrachee, in conjunction with H. M. S. Dalhousie. The troops will embark at the Prince's Dock probably on the 10th inst., the stores being shipped on the 9th. The Huzara is a steel built vessel of 2,078 tons, and is capable of carrying 1,000 troops. Other vessels tendered surveyed for the Government were the Chilka (B. I.), the Ellora (B. I.), and the Macedonia (Anchor Line).

MAJOR W. T. KEAYS, of the Bombay Staff Corps, leaves here to-day by the B. I. s. s. Calcutta for Kurrachee.

THE detachment of the 78th Highlanders now at Baroda will arrive at Colaba Station by the mail train at 9 o'clock to-morrow (Sunday) evening, and will join the 3 companies of that regiment stationed at Colaba. The Baroda detachment consists of 3 officers, 144 men, 4 women, 7 children and 36 followers.

No. 2 Bombay Mountain Battery seems to have been stationed in detachments at Chaman, Quetta, and Thul-Chotiali. A private telegram to a contemporary shows that one detachment—that probably from Quetta—had, by the 2nd instant, reached the Khojak Pass safely. Mountain guns are said to be much wanted at the front.

A TELEGRAM has been received in Bombay from Gulistan Karez, which states that Major Morse, officiating second in command of the 9th N. I., has been wounded in the leg. The wound is not serious.

MESSRS. FORBES AND CO., secretaries and agents of the very successful Bombay Ice Manufacturing Company, have issued a prospectus of a similar company to be formed at Poona. The capital of the new company is to be Rs. 1,05,000, divided into shares of Rs. 100 each. Six hundred shares are now offered, the calls on which are fixed as follows:—Rs. 10 on allotment, Rs. 25 on the 15th September next, Rs. 25 on the 15th October, Rs. 25 on the 15th November, and Rs. 15 on the 15th December. It is intended to erect a three-ton machine to start with, which will be supplemented by another should an increase of demand require it. The prospectus states:—"The company is formed for the purpose of carrying on the manufacture of ice in Poona by means of the machinery and processes of the General Ice Factory Company, Limited, which have been worked for some time past with complete success at Calcutta, Bombay, and Madras, as well as in numerous factories established in other parts of the world. The right to work these processes in Poona is at present vested in the Bombay Ice Manufacturing Company, Limited, subject to the right of the General Ice Factory Company, Limited, of London, to participate in the profits of the business to a certain extent. These two companies have agreed to sell the right to use the said processes to the Poona and Kirkee Ice Company, Limited, on terms which involve no actual cash payment, but provide for both the Bombay and the London companies participating in the profits of the Poona company."

IT would be well for judicial officers in the mofussil to treasure up the remarks made by the Bombay High Court (Mr. Justice M. Melvill and Mr. Justice Kemball) in the case of the Empress *vs.* Durgas Govind and two others, which was heard before their Lordships a few days ago. The three prisoners were convicted by Mr. M. H. Scott, Joint Sessions Judge, Kaladghee, of causing the deaths of a relative and his infant daughter; and while one of them was sentenced to transportation for life, the other two were sentenced to be hanged. Their Lordships remarked that, in a case like this, it was in the highest degree important that the police officer, who conducted the preliminary investigation, should be conducted with a view to ascertaining and when the evidence for the prosecution was first forthcoming, and what it was which led to the apprehension of the prisoners. Such evidence in murder cases should seldom be dispensed with; and in the case before the court, the omission to take it was, in the opinion of the learned judges, specially to be regretted. Their Lordships were always unwilling to interfere with a conviction in which the judge and assessors (as in this case) had concurred. But it was quite possible that the chief witness (Radhabai, the wife of the murdered person) might have given evidence in such a manner as thoroughly to convince those who heard her that she was speaking the truth; and yet that the circumstances of the case might fairly tend to the conclusion that she, almost unconsciously to herself, stated more than she was justified in stating. Their Lordships feared it was but too common for witnesses in this country, when thoroughly convinced that the accused was the person who committed an offence, to say they had actually seen what they believed to have happened. The convictions in the case were reversed, and the three accused were ordered to be discharged.

THE *Indian Daily News* would like to know what has become of the documents which were said to have been discovered by Sir F. Roberts at Kabul, eight or nine months ago. It was generally believed that they would be produced, and published, when the new Government got into harness; but in this matter the public has hitherto been disappointed. Rumour has been busy, but there is no certain information on the point, and we are yet unable to decide on the character of these papers. It is for the best interests of all concerned that these papers should be made public without delay. The Government of India is not even now so strong, that it can afford to ignore the many rumours which were, and still are, current regarding these papers. One such rumour suggests that the papers are kept back because they compromise Russia too clearly.

THE *Pioneer* is of opinion that the despatch of a force from Kabul is a strong measure; but fully justified by the greatness of the present crisis. The march, in all likelihood, will be an eventful one; and, as before, Sir Frederick Roberts is entrusted with a heavy duty. But, as before, we have every hope that what he has to do will be done well; and, for the re-establishment of our prestige in Southern Afghanistan, we look with far greater confidence to this force from Kabul than to the troops which are being slowly sent up through the Bolan. Our contemporary hopes it may be assumed that when Sir Frederick Roberts effects a junction with General Primrose he will be enabled to take command of all the forces in Southern Afghanistan.

THE following are the particulars of the death of Mr. Pengelly, of the Forest Department, to which we alluded yesterday. He was out in camp with his wife, in the hills beyond Chumba, on the road to Pangi. About 5 a. m. on Thursday, the 29th, he was awakened by his servants with the news that a black bear was in a neighbouring Indian cornfield. He hurried out, found the bear, and wounded it. He followed it up for an hour, when at last it took refuge in a cave immediately over a deep precipice. His attendants begged Mr. Pengelly not to follow it up further, as the place was most dangerous and the animal was certain to attack. He would not take the warning, but pushed along a narrow path, accompanied only by a fox-terrier he had with him. None of his people would go after him. They remained some way of above him. It appears that the fox-terrier, "Vix," attacked the bear at the mouth of the cave, and was torn to pieces at once. The bear then came straight at Mr. Pengelly. It is not known exactly what followed; but Mr. Pengelly's body was found 300 or 400 feet below where he had been standing, quite dead, and the bear had escaped. There was no mark whatever on the body to show that the bear had hugged, clawed, or bitten him. It can only be supposed that the animal must have pushed him off the narrow ledge on which he was standing either in attacking or in rushing past him. Mr. Pengelly was evidently taken aback, and had not time to fire. His body was brought into Chumba the next day, and he was buried there on the 30th, being the first European adult who has been interred in Chumba. He will be a great loss to his department, as he was a first rate, scientific, forest officer. He was at the time employed in demarcating forests in the Chumba State. The *Pioneer* says he leaves a widow, but no children. His only child died about a month before he was killed.

OUR Allahabad contemporary asks if the nature of the information as to Ayub's advance from Herat, sent in during the past month, was so reassuring that the military authorities were justified in ignoring the danger that has burst on Kandahar? How was it also that—when a British force had been so long in occupation of Kandahar, and when the advance of a second expedition to Girishk had long been contemplated—arrangements were not made for keeping up communications between General Burrows and his base, either by heliograph or by field telegraph? Why was he not put in heliographic communication with General Primrose and arrangements made for supporting him, if necessary? This is a matter for which the military authorities are responsible. And so far as can be judged at present, it seems impossible for them to evade the first and heaviest blame for nearly every phase of the disaster at Khuski-Nakhud where the British ranks were broken by the Afghan horse and our soldiers were pursued to within ten miles of Khandahar. General Primrose, considering the weakness of the Kandahar garrison, *may* have been justified in sending a weak brigade to the Helmund to obtain information, and the Commander-in-Chief of Bombay and Sir Frederick Haines, it may be, will be held excused for not vetoing the move. But when General Burrows had to retire from Girishk then was the time for taking immediate steps for securing our forward position. With the terrible account of defeat and slaughter, it is impossible calmly to speculate as to what ought to have been done. A British force of 1,200 men has been half destroyed, and those who escaped had to fly for their lives from the pursuing Afghans. Knowing this we not only blame the Generals in command for what has happened, but we mistrust them for the immediate future.

CONTRIBUTIONS INVITED FOR THE NATIVE INDUSTRIAL ARTS EXHIBITION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I shall feel obliged if you will kindly intimate in your paper that having been requested by the President of the Committee of Management for the Exhibition of Native Industrial Art to be held at Simla to select specimens of native art workmanship, I shall be glad if any native gentlemen, who possess good examples of old Indian art work and are willing to lend them for exhibition, will be good enough to communicate with me.

PRINCE'S DOCK.—The s. s. City of Baltimore entered the dock yesterday.

THE GAIETY THEATRE CASE.—Mr. Justice Marriott's decision in this case will be given at the High Court at 4 o'clock this afternoon.

A DILAPIDATED HOUSE.—A portion of the side wall of a house, No 165, Third Marine Lane, belonging to Manockjee Dadabhoy, fell in on Thursday. No persons were injured.

HOUSEBREAKING AND THEFT.—Shaik Mahomed Shaik Russool was yesterday convicted by Mr. Nana Morojee of housebreaking and theft of property consisting of a quantity of wearing apparel, valued at Rs. 34, belonging to Jugmohun Gowrishunkar. He was sentenced to six months' rigorous imprisonment.

A MUNICIPAL OFFENCE.—Ebrahim Shaik Ahmed was yesterday convicted by Mr. Dosabhoy Framjee of erecting a scaffolding on the Parell Road without a license from the Municipal Commissioner. He was fined Rs. 13 and further ordered to pay the usual fee of Rs 12 to the Municipality.

THEFT ON BOARD SHIP.—Captain J. Stuart, of the British ship Lyra, reported to the police on the 4th instant the theft of a box containing wearing apparel, &c., valued at Rs. 300, the property of Cassim Ebramjee, shipped on board that vessel on the 2nd inst. as cargo for conveyance to the Mauritius. The box, it appears, was allowed to remain on the main deck from which place it was missed on the following morning. Police enquiries are in progress.

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of silver in the Mint on the morning of the 26th ultimo was Rs. 51,95,321; add silver received during the week Rs. 8,43,547. The sum of Rs. 11,03,699 in new coin was paid during the week; the balance left was Rs. 49,35,169. There is in addition silver bullion valued at Rs. 19,70,454 belonging to private individuals deposited in the Mint vaults and awaiting assay.

MORTUARY RETURNS.—The total number of deaths registered during the week ending Tuesday, 3rd inst., was 316, being 43 less than in the previous week, 113 less than the total of the week ending 5th August 1879, and 175 less than the mean of the corresponding period in the preceding five years. During the week 352 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population per annum was 24·45. There were 104 deaths from remittent fever, being 3 less than in the previous week, and 43 less than in the same period last year. There was one death from cholera last week, while there was none in the week previous. The deaths from diseases to the respiratory system, diarrhœa and dysentery were last week 18, 11, and 15 respectively, as compared with 34, 23, and 22 last year. The following remark is appended by the Health Officer to his return:—"As there is no allowance made for the increase of population, natural and extraordinary, during recent years, the percentages of mortality are unreliable."

ALLEGED CRIMINAL BREACH OF TRUST.—Yesterday, at the Fort Police Court, two Mahomedans, named Abba Memon and Seedick Joonas, appeared before Mr. C. P. Cooper to answer a charge preferred against them by Hajee Haroon Mahomed, of criminal breach of trust in respect of a sum of Rs 200. The case for the prosecution was that in June last a Mahomedan woman, named Fatima, preferred a charge against the present complainant of enticing away her daughter. A warrant was obtained, when the matter was brought to the notice of the complainant by the defendants. The Rs. 200 in question were given to the defendants to bring the matter to a settlement, and instead of paying the amount to the party who obtained the warrant, the defendants appropriated the money to their own use and absconded. The defendants denied having received the monies at all. The plaintiff said he had paid the money to the defendants, as he was informed that his wife was to be summoned as a witness in the case, and he would have done anything to prevent her being brought to court where she would be stared at by hundreds of people. Mr. Framjee, pleader, who appeared on behalf of the defence, asked complainant whether or not he had stolen a note for Rs. 100 from the office of Parsee clerk employed in Mr. Paymaster's (solicitor) office, where he had gone to consult him in respect of the present charge. The complainant denied the above allegation, but admitted that he was once fined by Mr. Nana Morojee for bringing a false charge against a party. A Mahomedan pedlar who was examined in support of the complainant's statement, admitted being in jail for receiving stolen property. The case was adjourned for a fortnight.

HIGH COURT.—AUG. 6.

(Before the Hon. Sir CHARLES SARGENT *in* Chambers.)

APPLICATION FOR THE REMOVAL OF A GUARDIAN.

OOMAJI LINGOO *vs.* RUCKMABAI AND OTHERS.

The Hon. Mr. Latham (instructed by Messrs. Shapurjee and Thackerdas) appeared for the plaintiff, and Mr. Inverarity (instructed by Messrs. Tobin and Roughton) for the defendants.

This was a summons for the plaintiff to show cause why he should not furnish substantial security for the costs of defendant in the suit, or why he should not be removed, and a fit and proper person appointed in his place as guardian for the plaintiff.

The Hon'ble Mr. Latham did not deny his client was a poor man, but he would be able to cite authorities to show that a guardian was not supposed to give any security for costs. Mr. Inverarity, on the other hand, contended, that his learned friend's client should be removed if he was not able to provide security. The family of the plaintiff was composed of rich people, and he (Mr. Inverarity) was of opinion that his learned friend's client was put forward, while some other party was moving in the matter. His Lordship said he did not think a guardian was bound to give security, and no authority to the contrary had been cited. He would therefore dismiss the summons, the Advocate General's clients paying the costs. If it was hereafter found that plaintiff had made any vexatious application, he would be liable for costs notwithstanding the present order.

HIGH COURT.—AUG. 5.

(Before the Hon'ble MR. JUSTICE MARRIOTT.)

THE GAIETY THEATRE CASE.

MAJOR MERBERT H. P. COWPER AND ANOTHER *VS.* COOVERJEE SORABJEE NASIR.

MR. JARDINE, instructed by Messrs. Macfarlane and Gilbert, appeared for the plaintiffs, Major Cowper and Mr. C. W. L. Jackson; and Mr. Inverarity, instructed by Mr. Pestanjee Kavasjee, for the defendant.

The cross-examination of Mr. Gilbert by Mr. Inverarity was proceeded with. Mr. Gilbert said,—I am a friend of the gentlemen who were anxious to get up a theatre. I live with one of them, Mr. Turner. In acting in the matter, I considered myself solicitor for both parties. Something was said about stamping the documents, and I thought eight annas' stamp was sufficient, and so did the Collector. There was some discussion about the stamp; and I and Mr. Gill thought eight annas' stamp was sufficient. The stamp was put on by the Collector: his opinion was not taken. The rents were not assigned at the time. I admit making a mistake in my letter to Dave Carson, in which I say that the rents were assigned. I did not think it was a case in which Mr. Nazir should have had a solicitor. At first I considered I was a go-between to the parties. Nazir had no money at the time; he said he would be ruined if he did not get this money advanced by the European gentlemen. At the meeting I was present, it was not arranged that the money should be got from the Bank of Bombay. I should say it probably was the case that it was a joint project of Nazir and Major Cowper to have a theatre in Bombay. I can't say it was a speculation; I should say all the European gentlemen were anxious to have a theatre in Bombay on public grounds. Mr. Nazir was anxious to make money, and Major Cowper was anxious to gratify his dramatic tastes. I did not explain the agreement to Mr. Nazir. I did not say that I should charge him for drawing up a fresh agreement if he did not sign the one I had engrossed. (Is shown a letter.) I wrote this letter saying that if Nazir did not agree to the agreement I had drawn up, he must get another copied at his own expense. I will not swear the letter does not refer to the agreement of the 9th December: it probably does. I ceased to be solicitor for both parties after the two agreements of December were executed.

Re-examined by Mr. Jardine.—The copying of the agreement would have cost Nazir two or three rupees. I daresay he should have done it himself. When Nazir came to me to peruse the draft of the agreement of the 9th December, he had a conversation with me about mortgaging the theatre. Except in regard to the seats and extending the charge on the proceeds, Nazir assented to the draft. He is half a lawyer himself. He has been a lawyer's clerk. The clause about the free seats has been altered since the document was engrossed. The word "ten" has been struck out, and "twenty" appears in Mr. Nazir's handwriting.

To Mr. Inverarity.—I believe my clerk has told me that Mr. Nazir had been a lawyer's clerk, I am not sure.

Mr. Charles Agnew Turner said.—I am one of the gentlemen applied to for a loan of money to assist Mr. Nazir. Three meetings were held, at all of which I was present. At the first meeting. Major Cowper, who was the spokesman for Nazir, who was present, told us that Rs. 16,000 were required. The same gentlemen were present at the second meeting, when Mr. Nazir agreed not to mortgage the theatre.

His Lordship suggested, with reference to the wording of a question about to be put, that it was desirable not to embitter the feeling between the parties.

Mr. Jardine.—The matters have gone so far that it would be impossible to prevent a certain amount of bitterness and animosity between the parties.

Mr. Turner continued.—At the second meeting, Nazir agreed among other things not to mortgage the theatre. At the third meeting we were told that Nazir had not been able to realise his property at Grant Road, and that we should pay down Rs. 27,000 next morning, or that the whole thing must fall through; and that unless the money was paid down, Mr. Nazir would have incurred serious liability; and further that the company would not start unless the whole money was paid in the name of Mr. Justice Bayley and Mr. Vouillon. As we had gone so far, we did not wish to retreat, the agreement of 17th October 1879 was written out hurriedly by Mr. Gill; and we agreed to draw a bill on the Bank of Bombay. Mr. Gilbert was not present on the third occasion. I remember there were disputes with Nazir before February about his mortgaging the theatre without letting us know, because he distinctly promised not to mortgage it. As a matter of fact, he had distinctly promised at the second interview not to mortgage the theatre. I remember the disputes in February. Mr. Nazir was present, Mr. Gilbert as well as all of us. I know Dr. Doolittle was present. The agreement of the 9th December was produced by Mr. Gilbert and given to Mr. Nazir,

ARE composed of Pure Phosphorus (Luminous), Quinine, Iron and Nux Vomica.

An invaluable remedy for NERVOUS DISEASES characterised by DEBILITY, POVERTY of BLOOD and loss of NERVE POWER.

This preparation of Phosphorus cures NEURALGIA, NERVOUS INDIGESTION, LOWNESS of SPIRITS, and other manifestations of NERVOUS EXHAUSTION very rapidly.

BRAIN WORKERS, CLERGYMEN, PROFESSIONAL and BUSY COMMERCIAL MEN who are habitually overworked derive great benefit from this COMBINATION OF TONICS.

FOR CONVALESCENTS recovering from Fever and other Exhausting Diseases, this restorative is superior to all other medicine.

May be obtained from Messrs. Treacher & Co., Bombay; Messrs. Madon & Co., Bombay; Messrs. Smith, Stainstreet and Co., Calcutta; and Mr. J. L. Lyell, Allahabad.

"OLD DR. JACOB TOWNSEND'S" SARSAPARILLA.

THE BLOOD PURIFIER.

THIS extraordinary Medicine has a singular influence upon the blood, which it enriches and purifies. It removes all pimples, humours, and blotches, purifies the system, and acts like a charm. As a sustaining and purifying tonic it is invaluable, and highly recommended in long standing cases of indigestion, neuralgia, coughs, colds, scrofula, gout, dropsy, and wasting of flesh. And is greatly assisted by the Sarsaparilla Pills.

CAUTION.—GET THE RED AND BLUE WRAPPER, WITH THE DOCTOR'S HEAD IN THE CENTRE. NO OTHER GENUINE. In bottles, of all Chemists, 2s. 6d., 4s. 6d., and 11s. 13l, Fleet St., E.C.

"OLD DR. JACOB TOWNSEND'S",
SARSAPARILLA PILLS

are the most popular Medicine known for all bilious affections, liver, stomach complaints, and indigestion. Most efficacious in conjunction with the Sarsaparilla. 1s. 1½d., 2s. 9d. and 4s. 6d., of all Chemists.

CURE OF RHEUMATISM AND SCORBUTIC ERUPTION.

The Elms, North Cheam, Surrey, S. 4th March, 1875.

"SIR,—I had been suffering from rheumatism for several years, together with scorbutic eruption of the skin, of a local nature, about the size of the palm of the hand, and was induced to try you Blood Mixture in consequence of two gentlemen in my neighbourhood having been cured of obstinate sores on the body. After using two bottles, I became much better, and continued it up to the tenth bottle, when I found the rheumatism had left me, and my arm was healed. I consider it a most valuable medicine.

"You are at liberty to use this letter in any way you think proper, for the benefit of others.

"Faithfully yours,
To Mr. F. J. Clarke." "THOMAS WATTS."

Sold in Bottles 2s. 6d. each, and in Cases, containing six times the quantity, 11s. each—sufficient to effect a permanent cure in the great majority of long-standing cases, BY ALL CHEMISTS, and PATENT MEDICINE VENDORS throughout the world.

HEALTH, STRENGTH, AND ENERGY.

DR. LALOR'S PHOSPHODYNE.

TRADE MARK—PHOSPHODYNE.

DISCOVERED AND SO NAMED, A.D. 1862, BY R. D. LALOR, M.D.

DR. LALOR'S PHOSPHODYNE is a Pure Solution of PHOSPHORUS in combination with the Vegetable Alkaloids Quinia, Cypripedin, Xanthoxylin, &c., prepared by a Chemical process known only to DR. LALOR, producing a remarkably Elegant and Pleasant Tasted Preparation, equal to the best Wines, Perfectly free from Strychnia and all other Disagreeably Active Poisons; and from the numerous objectionable forms of Phosphorous Pills, Pilules, Oils, and other Nauseous Mixtures with which the Market has been flooded since the Phosphoric Treatment of Disease was first made Public by DR. R. D. LALOR, in 1862.

To Residents in India, China, and the Colonies, it will prove invaluable as a Reliable Liver Tonic and a Vitalizing Restorative.

This Phosphatic combination, the Wonder of Modern Chemistry is pronounced by the most eminent members of the Medical profession to be unequalled for its power in replenishing and elaborating the Vitality of the Body; by its supplying all the essential constituents of the BLOOD, BRAIN, and NERVE SUBSTANCE; and for developing all the Powers and Functions of the system to the highest degree; by its being agreeable to the palate, and innocent in its action. While retaining its wonderful properties, it acts as a Specific, surpassing all the known THERAPEUTIC AGENTS of the PRESENT AGE, for the SPEEDY and PERMANENT CURE of all derangements of the Nervous and Blood Systems, Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Indigestion and Liver Complaints, Flatulence, Nervous Fancies, Hypochondria, Nervous Debility in all its Stages, Loss of Memory, Softening of the Brain, Paralysis, Affections of the Kidneys, Bladder, Urinary Deposits, &c., Ague, Spasms, Asthma, Consumption, Chronic Bronchitis, Scrofula and Skin Diseases, Wasting or Withering of the Muscles, Impaired Nutrition, Impoverished Blood, Premature Decline, and all morbid conditions of the system, dependent upon the deficiency of THE VITAL FORCES arising from whatever cause

DR. LALOR'S PHOSPHODYNE

Gives back to the Human structure in a suitable form the Phosphoric or Lively Animating element of life which has been wasted, and exerts an important influence directly on the brain, Spinal Marrow, and Nervous System, of a Nutritive, Tonnic, and Invigorating character; thereby checking all wasting of the Vital Fluid, and the more Exhausting Processes of Life, maintaining that Buoyant Energy of the Brain and Muscular System which renders the Mind Cheerful, Happy, Brilliant, and Energetic entirely overcoming that dull, Inactive and Sluggish disposition which many persons experience in all their action.

CAUTION.—The Name DR. LALOR'S PHOSPHODYNE is blown in the glass of each bottle, and the Genuine Phosphodyne is manufactured at and is obtainable only direct from DR. LALOR'S Laboratory, London, England. WHOLESALE and EXPORT HOUSES are Specially requested to NOTE this. Sold in Bottles at 4s. 6d. and 11s. by all Export, Wholesale and Retail Medicine Vendors throughout the World.

IMPORTANT NOTICE.—Every Bottle bears the British Government Stamp, with the words DR. LALOR'S PHOSPHODYNE, London, England, Engraved thereon by Order of Her Majesty's Honourable Commissioners. IF NOT, IT IS A FORGERY, and you have been imposed on by a worthless imitation.

PUBLIC NOTICE AND WARNING.—To Medicine Vendors and the Public in Great Britain, India, China, and the Colonies.—DR. ALOR'S PHOS HODYNE is the only Medicine bearing the name PHOSPHODYNE that has the Sanction of the British Government, and for which Her Majesty's Registrar of "Trade Marks" has granted Certificates to DR. LALOR ONLY. Therefore DR. L LOR'S is the only Legitimate and Genuine PHOSPHODYNE. BEWARE of Worthless Counterfeits that may emanate from Australia or America.

CALVERT'S CARBOLIC DISINFECTANTS AND SOAPS

Have been Awarded GOLD MEDALS—Havre and Moscow; SILVER MEDALS—Paris, Havre, and Naples;

DIPLOMAS—Santiago, Amsterdam, and Philadelphia; PRIZE MEDAL of the Sanitary Institute of Great Britain.

JUROR—Vienna, 1873.

Ample proofs can be offered that these Preparations are the BEST that can be used for the purposes in part detailed below:—

CALVERT'S CARBOLIC ACID POWDER

(Guaranteed to contain 15 per cent. genuine Acid)

MOST USEFUL TO DESTROY OFFENSIVE AND INJURIOUS ODOURS GIVEN OFF BY

NIGHT COMMODES, CLOSETS, URINALS, MANURE AND DUSTHEAPS.

It is cheaper in the using than Disinfecting Powders offered at less rates (without guarantee for strength), much less quantity being needed to obtain good results.

Its utility may be relied on, as the Carbolic Acid is free from Tar Oils, which are almost worthless for disinfecting purposes. CALVERT'S Powder is regularly used by the Army Department, many Railway Companies, Brewers, Carriers, Local and School Boards, &c. &c. When lightly sprinkled over any offensive matter it will at once destroy all foul or infectious odour; hence it is particularly valuable in Stables, Kennels, Fowl or Pigeon Houses, to keep them healthy and free from insects or flies.

Sold in ¼, 1, and 2lb. Dredgers, at 6d., 1s., and 1s. 6d. each; 7, 14, 28, & 56lb. Cases, at 2s. 6d., 4s., 6s., and 10s. each, and in Casks, 17s. 6d. per cwt.

CALVERT'S No. 5 CARBOLIC ACID

Is a concentrated and purified product, o guaranteed strength. In weak solutions (1 oz to ¼ gallon of water) it is the best and cheapest preventive of infection or contagion; it arrests all kinds of putrefactive change, and destroys all the lower forms of insect or vegetable life. The Acid (or Powder) is very valuable for arresting decay of animal or vegetable matter, and for preventing the entry into Dwellings, Gardens, &c., of Insects and Reptiles, which dread the odour of Carbolic Acid that will emanate freely when the Powder or diluted Acid is sprinkled about infected places; the diluted Acid is especially useful to cleanse and purify Yards, Cellars, Stables, or Cowsheds, and to destroy weeds on Garden Walks. A little of the raw Acid, applied at the roots with a pointed stick, will kill Dandelions or other Plants on Lawns.

Ribbed Bottles, ½ lb., 1s.; 1 lb., 1s. 6d.; ½, ½, and 1 Gallon Trade Mark Sealed Tins, at 2s. 6d., 4s., and 7s. each; and in Bulk, 6s. per Gallon.

CALVERT'S CARBOLIC ACID SOAPS

Are made of various qualities, each containing a guaranteed proportion of genuine Carbolic Acid, which is *the true antiseptic principle in Coal Tar*. They are valuable as preventives of contagion, also for destroying unpleasant odour from the skin, and keeping it healthy and free from prickly heat or other irritation, as well as for washing soiled or infected clothing, and floors, walls, or animals infested with insects; the Domestic, Laundry, and soft soaps being specially suitable for the last named uses. In warm climates these Soaps are almost indispensable; the Toilet and Prickly Heat Soap were supplied for use of H. R. H. the Prince of Wales during his Indian Tour. The Soft Soap is also very useful against greasy heel and mange, (it is used in the Royal Kennels) and it prevents cattle from annoyance of flies. The Tooth Soap is said to allay dental Nuralgia.

PRICES:

Toilet Soap, 10 per cent. Acid	6d. Tablets	Medical Soap, 20 per cent. Acid	1s. Tablets.
Household or Toilet and Prickly Heat Soap, 10 per cent. Acid	6d. and 1s. Bars.	Domestic Soap, 8 per cent. Acid	6d. lb. Bars.
